Registered Behavior Technician – RBT

Description

Bright Ninos Autism Center is looking for caring, compassionate individuals that want to work with kids to see them thrive. At Bright Ninos, your work truly makes a difference! We are seeking Behavior Technicians to work 1:1 with clients. We utilize a results-oriented approach called applied behavior analysis (ABA therapy), which involves observing how our clients react to their environment and how they respond to people around them. As a behavior technician, you will engage in various activities to help build skills and social awareness.

This position is ideal for people who are natural caregivers, individuals who have a passion or interest in preschool teaching, teaching assistant, daycare, early childhood education, and care for individuals with special needs. 60 hours of paid training, **no experience needed**.

Qualifications

- High School Diploma required.
- Bachelor's degree in psychology, education, social work, or a related field is preferred (but not required)
- Relevant experience working with children with special needs is preferred.
- Reliable transportation
- Ability to pass a caregiver's background check.

Job Benefits

- Competitive pay based on experience and education, including qualifications, skills, competencies and experience.
- Paid training for Registered Behavior Technician.
- You'll always be working 1:1 with a client.
- Paid time off
- Paid training
